About This Game

It's quite common for creatures to mutate due to environmental pollution. Time passed by, and people must pay for their sins.

An unexplored organism had originated in close vicinity of postwar Europe. It affects on nervous systems of the beasts making them overly aggressive, vicious and bloodthirsty. Numerous creatures had died through it, but plenty of their kinds remained alive. They were becoming a serious threat to the existence of humanity.

Felix Klerx was working as an ordinary train driver. He didn't believe the news until he had met the danger face to face.

You must defend yourself, search for the resources, drive the train, and the most important one - survive.
